

Statistical Summary FY 2017

Community Corrections Adult Offender Population

Community Corrections Services Division
714 SW Jackson St., Suite 300
Topeka, KS 66603

Preface

This report provides a detailed statistical summary of adult offenders under the Kansas community corrections system during fiscal year 2017. The report is based on data pulled from the Total Offender Activity Documentation System (TOADS). The number of offenders for whom information is available varies across data items. The data may differ from other reports published by the Kansas Department of Corrections and the Kansas Sentencing Commission because this report reflects information for community corrections offenders only; captures different data elements; and is captured at different points in time. Each set of data is prefaced with a short description of content.

Fiscal Year 2017 Community Corrections Statistical Summary Data Index

Page	1	Title Page
Page	2	Preface
Page	3	Index
Pages	4 - 8	Section I: Average Daily Population
Pages	9 - 13	Section II: Number and Percentage of Community Corrections Offender Files Closed by Agency and Closure Type
Pages	14 - 30	Section III: Number and Percentage of Community Corrections Offenders Files Closed by Type for Fiscal Years 2012 - 2017
Pages	31 - 32	Section IV: Number and Percentage of Departures by Agency
Pages	33 - 35	Section V: Number of Community Corrections Offenders with an LSI-R Score: Termination Reason by Risk Level
Pages	36 - 39	Section VI: JRI Graduated Sanctions
Pages	40 - 42	Section VII: Active Population

SECTION I: Average Daily Population for FY 2017

The first section of data consists of the average daily population (ADP) for the community corrections offender population. These data are presented in two sections of three tables each for a total of six tables.

Monthly Actual ADP is the ADP average for that particular month.

Table 1 – Monthly Actual ADP by Agency

Johnson County – this number includes both AISP and Residential ADP

Sedgwick County – this number includes AISP, Drug Court, and Residential ADP

Table 2 – Monthly Actual ADP for each Residential Center

Table 3 – Monthly Actual Absconder ADP by Agency

Johnson County – this number includes both AISP and Residential absconders

Sedgwick County – this number includes AISP, Drug Court and Residential absconders

Twelve Month ADP is an ADP averaged over the last 12 months. Example: June 2017 ADP looks at the ADP from July 2016 – June 2017 (12 months).

Table 4 – 12 Month ADP by Agency

Johnson County – this number includes both AISP and Residential ADP

Sedgwick County – this number includes AISP, Drug Court, and Residential ADP

Table 5 – 12 Month ADP for each Residential Center

Table 6 – 12 Month Absconder ADP by Agency

Johnson County – this number includes both AISP and Residential absconders

Sedgwick County – this number includes AISP, Drug Court and Residential absconders

At the end of section one is a graph which shows the statewide ADP at the end of each fiscal year from 2013-2017.

SECTION II: Number Community Corrections Offender Files Closed in FY 2017 by Agency and Closure Type

The data in Section II is a one page snap-shot of how offender files closed in fiscal year 2017. Case closure types split by the gender of the offender is also presented. Information was pulled from the agency's individual Court Case Sentencing Activity Reports which were run starting on 7/20/17 at 05:54:03 PM, and concluded on 7/21/17 at 06:39:15 PM. The statewide total numbers were pulled from the statewide Court Case Sentencing Activity Report, which was run on 7/28/17 at 07:54:20 PM.

In Table 1, you may notice that if you sum up all the agencies they will not equal the statewide total. This is because looking at the data from the agency perspective, offender have the possibility of having more than one file in the state during that particular time frame, as an offender may have a closed case in more than one community correction agency. An offender is counted once per agency, but can be in more than one agency's total– in data terms, the offender can be duplicated. The statewide summary and totals, however, the actual offender is only counted once regardless of how many agencies in which the offender had closed cases – in data terms the offender is unduplicated. Please note, however, that in Table 2, the statewide numbers are the sum of all of the agencies. This is because the same report that is used to obtain the statewide totals in Table 1 does not include a breakdown by the offender's gender.

Figures 1 and 3 present the total number of cases that closed broken down into racial and age groups.

Figures 2 and 4 present the total number of cases that closed as either successful or revocation broken down into racial and age groups.

Section III: Number and Percentage of Community Corrections Offender Files Closed by Type Fiscal Years 2012 – 2017

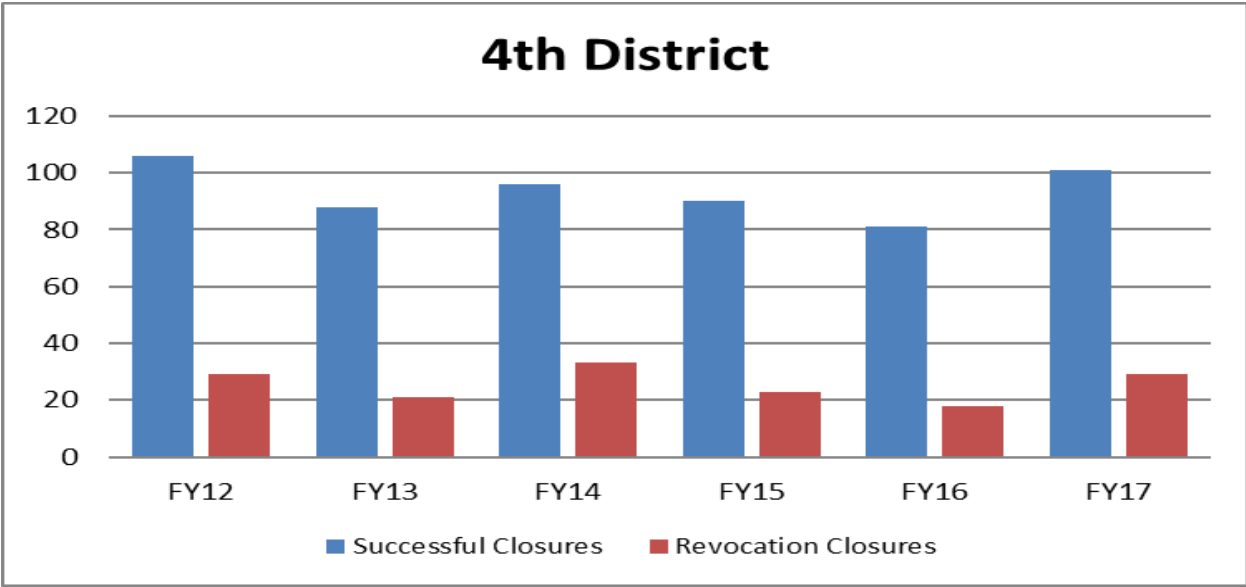

The data in the bar chart shows the number of offender files by termination reason for fiscal years 2012 through 2017 for each agency and statewide. The table below the bar chart offers the number and percentage of cases which were closed by reason for fiscal years 2012 through 2017.

A number of closure types are included in the group of successfully closed cases. In addition to cases that were successfully closed, cases that were terminated due to the offender's death, the offender not being sentenced to community corrections, and cases that were unsuccessfully closed for any reason (closed by court, remanded to jail, etc.) were classified as successfully closed. The group measuring revocation terminations is comprised of cases that were revoked due to a new misdemeanor, cases revoked due to condition violations, and cases revoked due to a new misdemeanor.

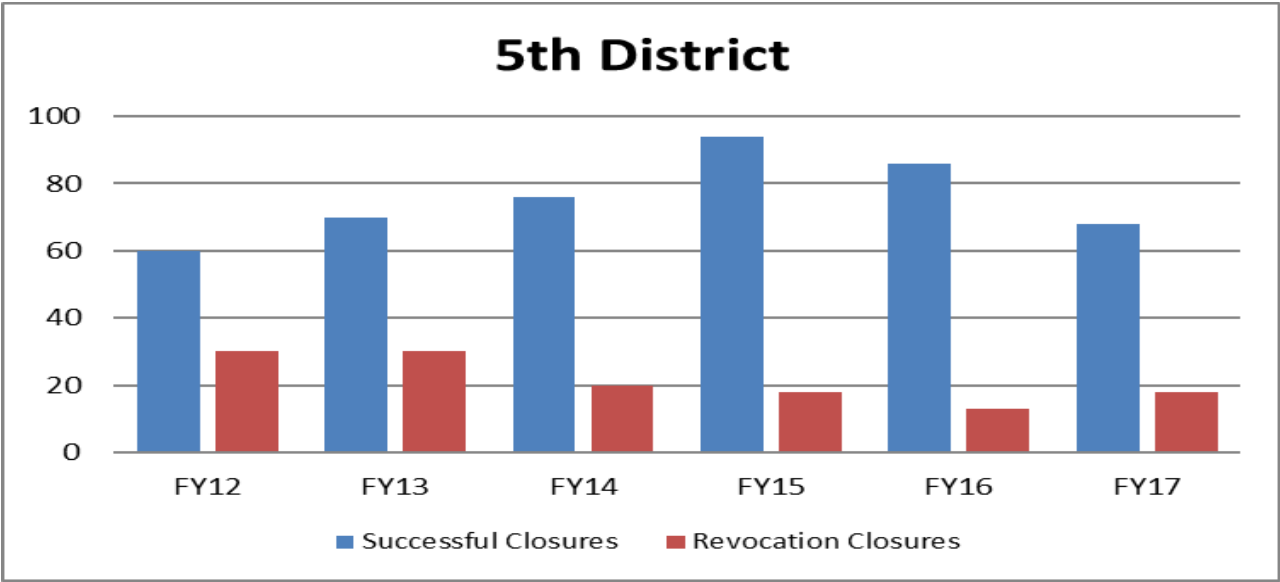

All information for Section III was pulled from the agency's individual Court Case Sentencing Activity Reports which were run starting on 7/20/17 at 05:54:03 PM, and concluded on 7/21/17 at 06:39:15 PM. The statewide total numbers were pulled from the statewide Court Case Sentencing Activity Report, which was run on 7/28/16 at 07:54:20 PM.

SECTION IV: Number and Percentage of Departures by Agency and Statewide for FY17

Data was pulled from the Court Case Departures Report (export to Excel) within TOADS for FY17 only. There are several departure types but only the four most utilized departure types are included (as the report does not make a distinction between a Double Downward; Double Upward; or Up & Down departure).

The sentencing court may depart upward to increase the length of a sentence up to double the duration (**Upward Durational Departure**) within the sentencing grid block.

The court may also depart downward to lower the duration of a presumptive sentence (**Downward Durational**).

The sentencing court may depart upward to increase the type of supervision from probation to prison (**Upward Dispositional**)

The sentencing court may also depart downward to decrease the type of supervision from prison to probation (**Downward Dispositional**).

*A more in-depth explanation of departure types is available by request if needed.

**SECTION V: Number of Community Corrections Offenders with an LSI-R Score:
Termination Reason by Risk Level**

This is a quick snapshot of the number of offenders LSI-R risk level by termination reason for all agencies and statewide during fiscal year 2017. The second page is the percentage of offenders LSI-R risk level by termination reason. Numbers were pulled from the agency's individual Court Case Sentencing Activity Reports which were run starting on 7/20/17 at 05:54:03 PM, and concluded on 7/21/17 at 06:39:15 PM, and matched with numbers from the TOADS-Assessment file (assessment conducted closest to discharge), which was pulled on 7/26/2017. There will be several offenders who did not have an LSI-R supervision level. Also, offenders who were Not Sentenced to Community Corrections or who Died were not included in the LSI-R risk level data.

As stated for Section II, you may notice that if you sum up all the agencies they will not equal the statewide total. This is because looking at the data from the agency perspective, offender have the possibility of having more than one file in the state during that particular time frame, as an offender may have a closed case in more than one community correction agency. An offender is counted once per agency, but can be in more than one agency's total— in data terms, the offender can be duplicated. The statewide summary and totals, however, the actual offender is only counted once regardless of how many agencies in which the offender had closed cases – in data terms the offender is unduplicated.

*Numbers based on the most recent scored LSIR conducted to termination date

SECTION VI: JRI Graduated Sanctions

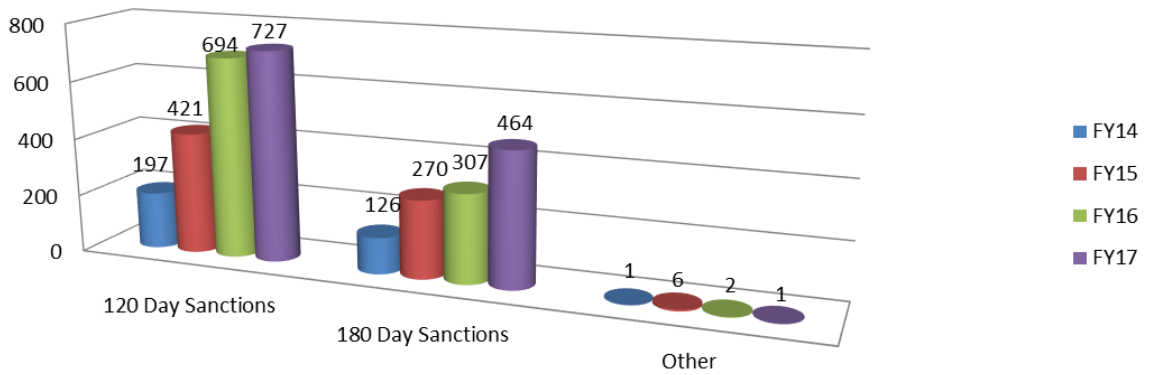

The data in Section VI shows the number of JRI Graduated Sanctions that were utilized from FY 2014 through FY 2017.

Data regarding the 120 and 180 day prison sanctions was obtained from the Kansas Sentencing Commission's FY 2015 and FY 2016 Prison Population Projection Reports and the FY 2017 JRI Annual Tracking Report.

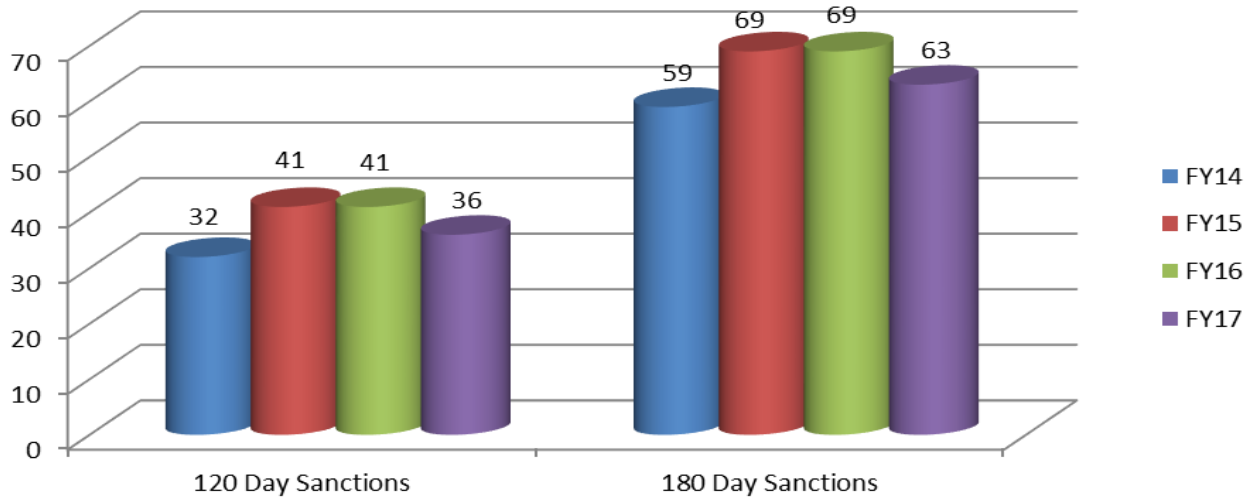

The chart titled **Number of Sanctions Administered** reflects the number of 120 day and 180 day prison sanction interventions that were entered into TOADS during each fiscal year.

Data regarding the 2 and 3 day jail sanctions was obtained from the Kansas Sentencing Commission's FY 2014 through FY 2017 JRI Annual Tracking Reports.

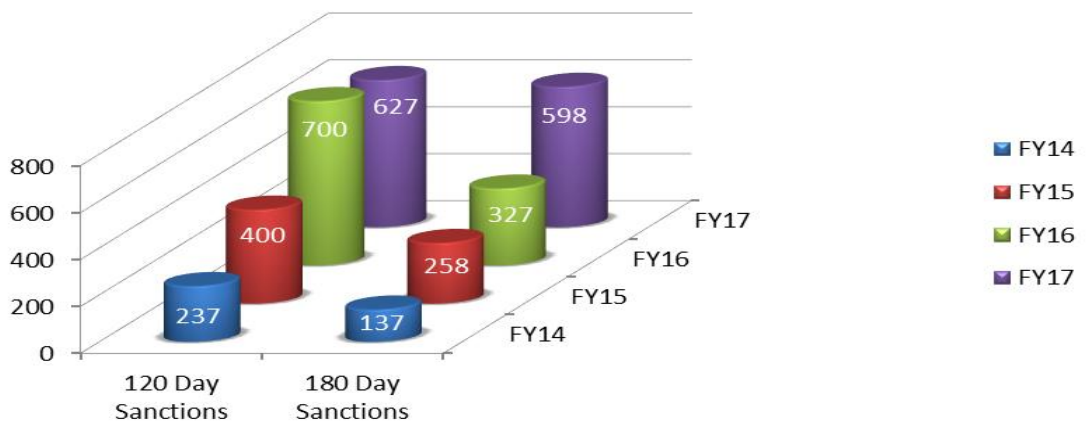

120 and 180 Day Prison Sanctions Number of Offender Admissions to Prison

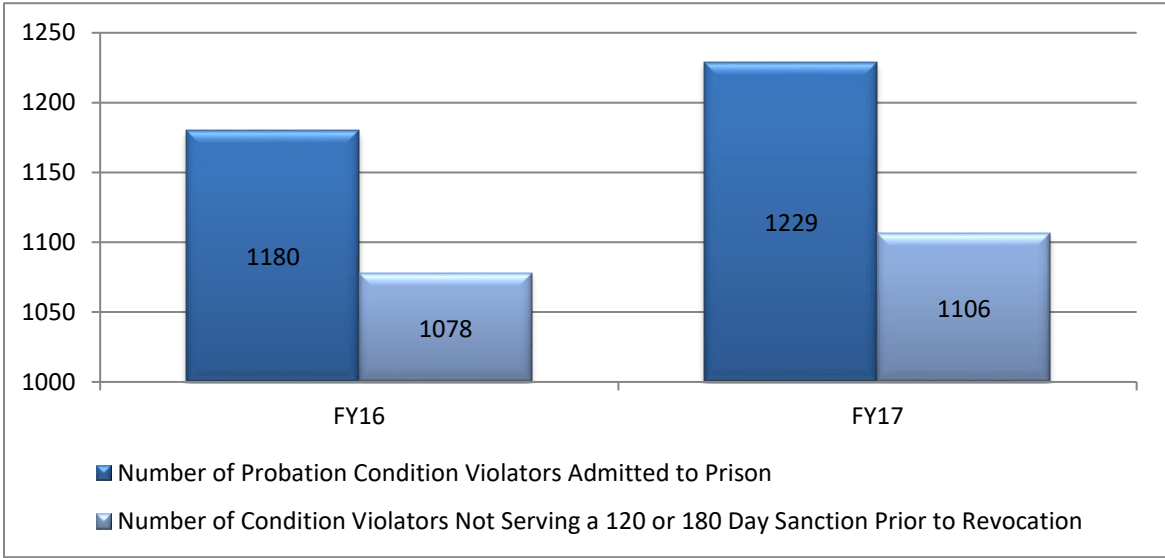

Average Length of Stay in Prison

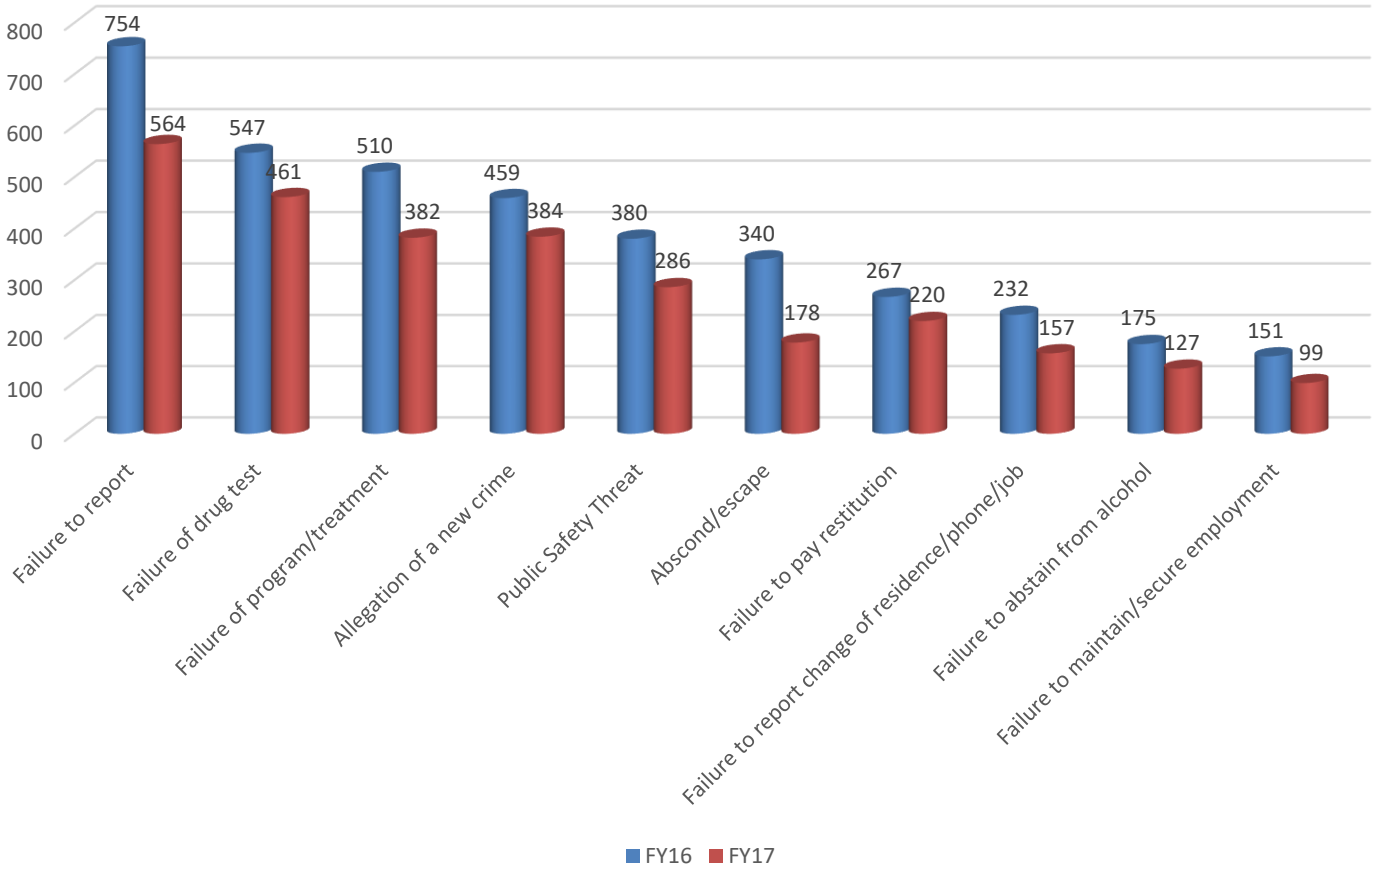

Number of Sanctions Administered

*Number of Sanctions Administered = Total Number of 120 and 180 day sanction interventions entered in TOADS during each fiscal year.

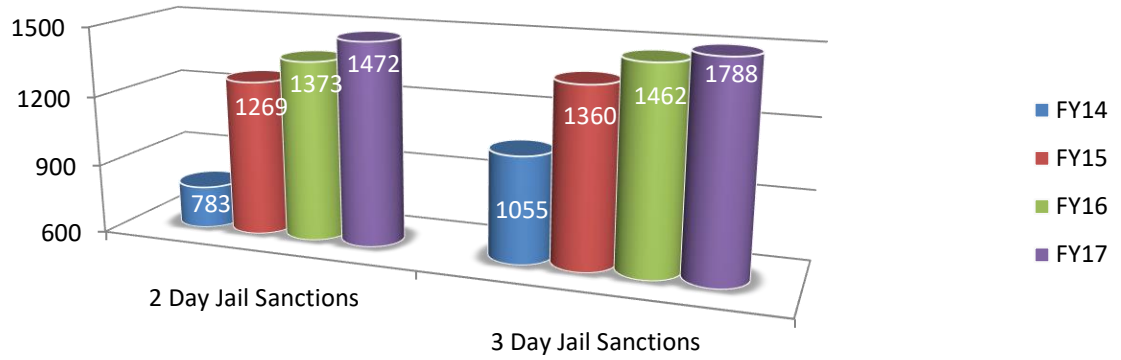

Top Reasons For Not Utilizing 120 or 180 Day Sanctions Prior to Full Revocation

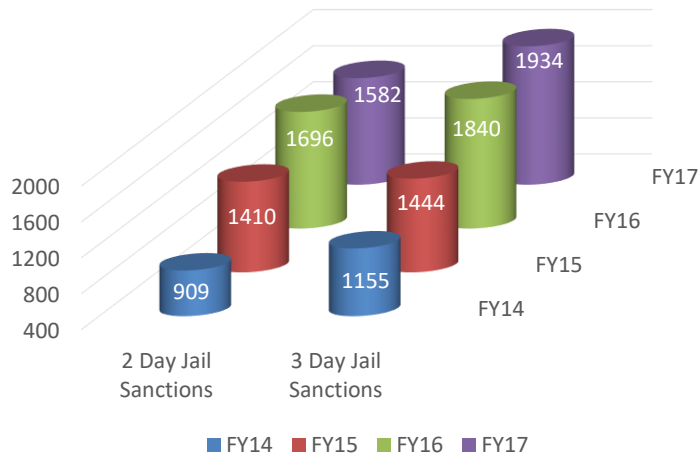

*Reflects the number of times each reason was utilized by Judges as noted on the Probation Revocation Journal Entry.

Number of Offenders Receiving Jail Sanctions

Number of Jail Sanctions Administered

* Number of Sanctions Administered = Total Number of 2 and 3 day sanction interventions entered in TOADS during each fiscal year.

SECTION VII: ACTIVE POPULATION

Section VII presents the demographic and risk level distribution information for the active population at the end of Fiscal Year 2017.

Demographics:

This data comes from a snapshot of the active population as it appeared on June 30, 2017. It shows the population broken down by Gender, Race and Age for each administrative unit.

Risk Level Distribution:

This data comes from a snapshot of the active population as it appears on June 30 of each Fiscal Year represented.

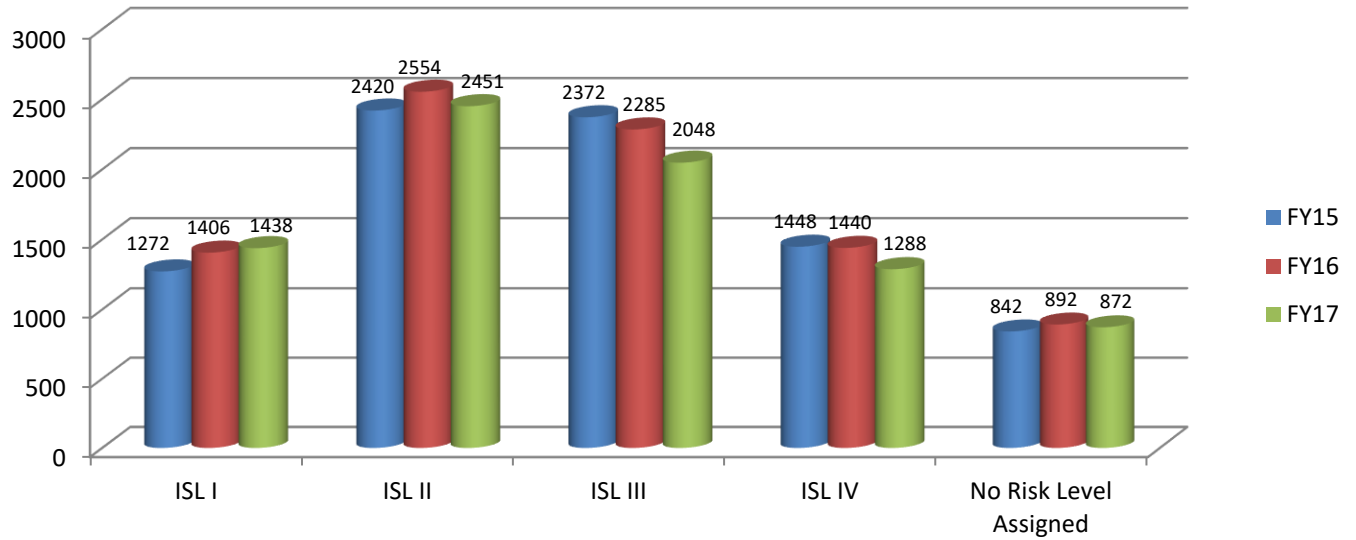

Demographics of Active Community Corrections Offenders as of June 30, 2017
