ⁱ Juvenile Intake and Assessment Service programs operate in each administrative county of all judicial districts in Kansas. Law enforcement agencies utilize JIAS for youth alleged as child in need of care or juvenile offender who are taken into law enforcement custody. JIAS assess the youth's circumstances and assist families and law enforcement during the crisis situation.

ⁱⁱ Juvenile Intensive Supervision Probation (JISP) is a structured community-based supervision program that provides an additional sentencing option to Kansas' courts. Youth on JISP have either previously failed traditional court service probation or have committed a serious offense, but do not require an out-of-home placement or commitment to a juvenile correctional facility.

ⁱⁱⁱ Youth are placed in JJA custody by the court. Youth in JJA custody may be placed at home, with relatives, juvenile correctional facility or in another type of community placement.

^{iv} State total only includes youth who were admitted into a JCF and does not include those youth transferred from one JCF to another.

^v State total only includes youth who were released on Conditional Release or Direct Discharge and does not include those youth transferred to another facility.

^{vi} Atchison Juvenile Correctional Facility ceased operations effective 12/8/2008.
